

Get started with Beady

beady

**Download the Beady app  
and create a user account.**

The app  
is free

A hand-drawn black arrow points from the text 'The app is free' towards the main heading. To the right of the text, several colorful beads (blue, yellow, brown) are scattered on the yellow background, some with soft shadows.

**Did you know that!**

You can download the beady app for both your phone and tablet.

Enter the code

# Enter your voucher code and assets your motives

You find your patterns in "My patterns"

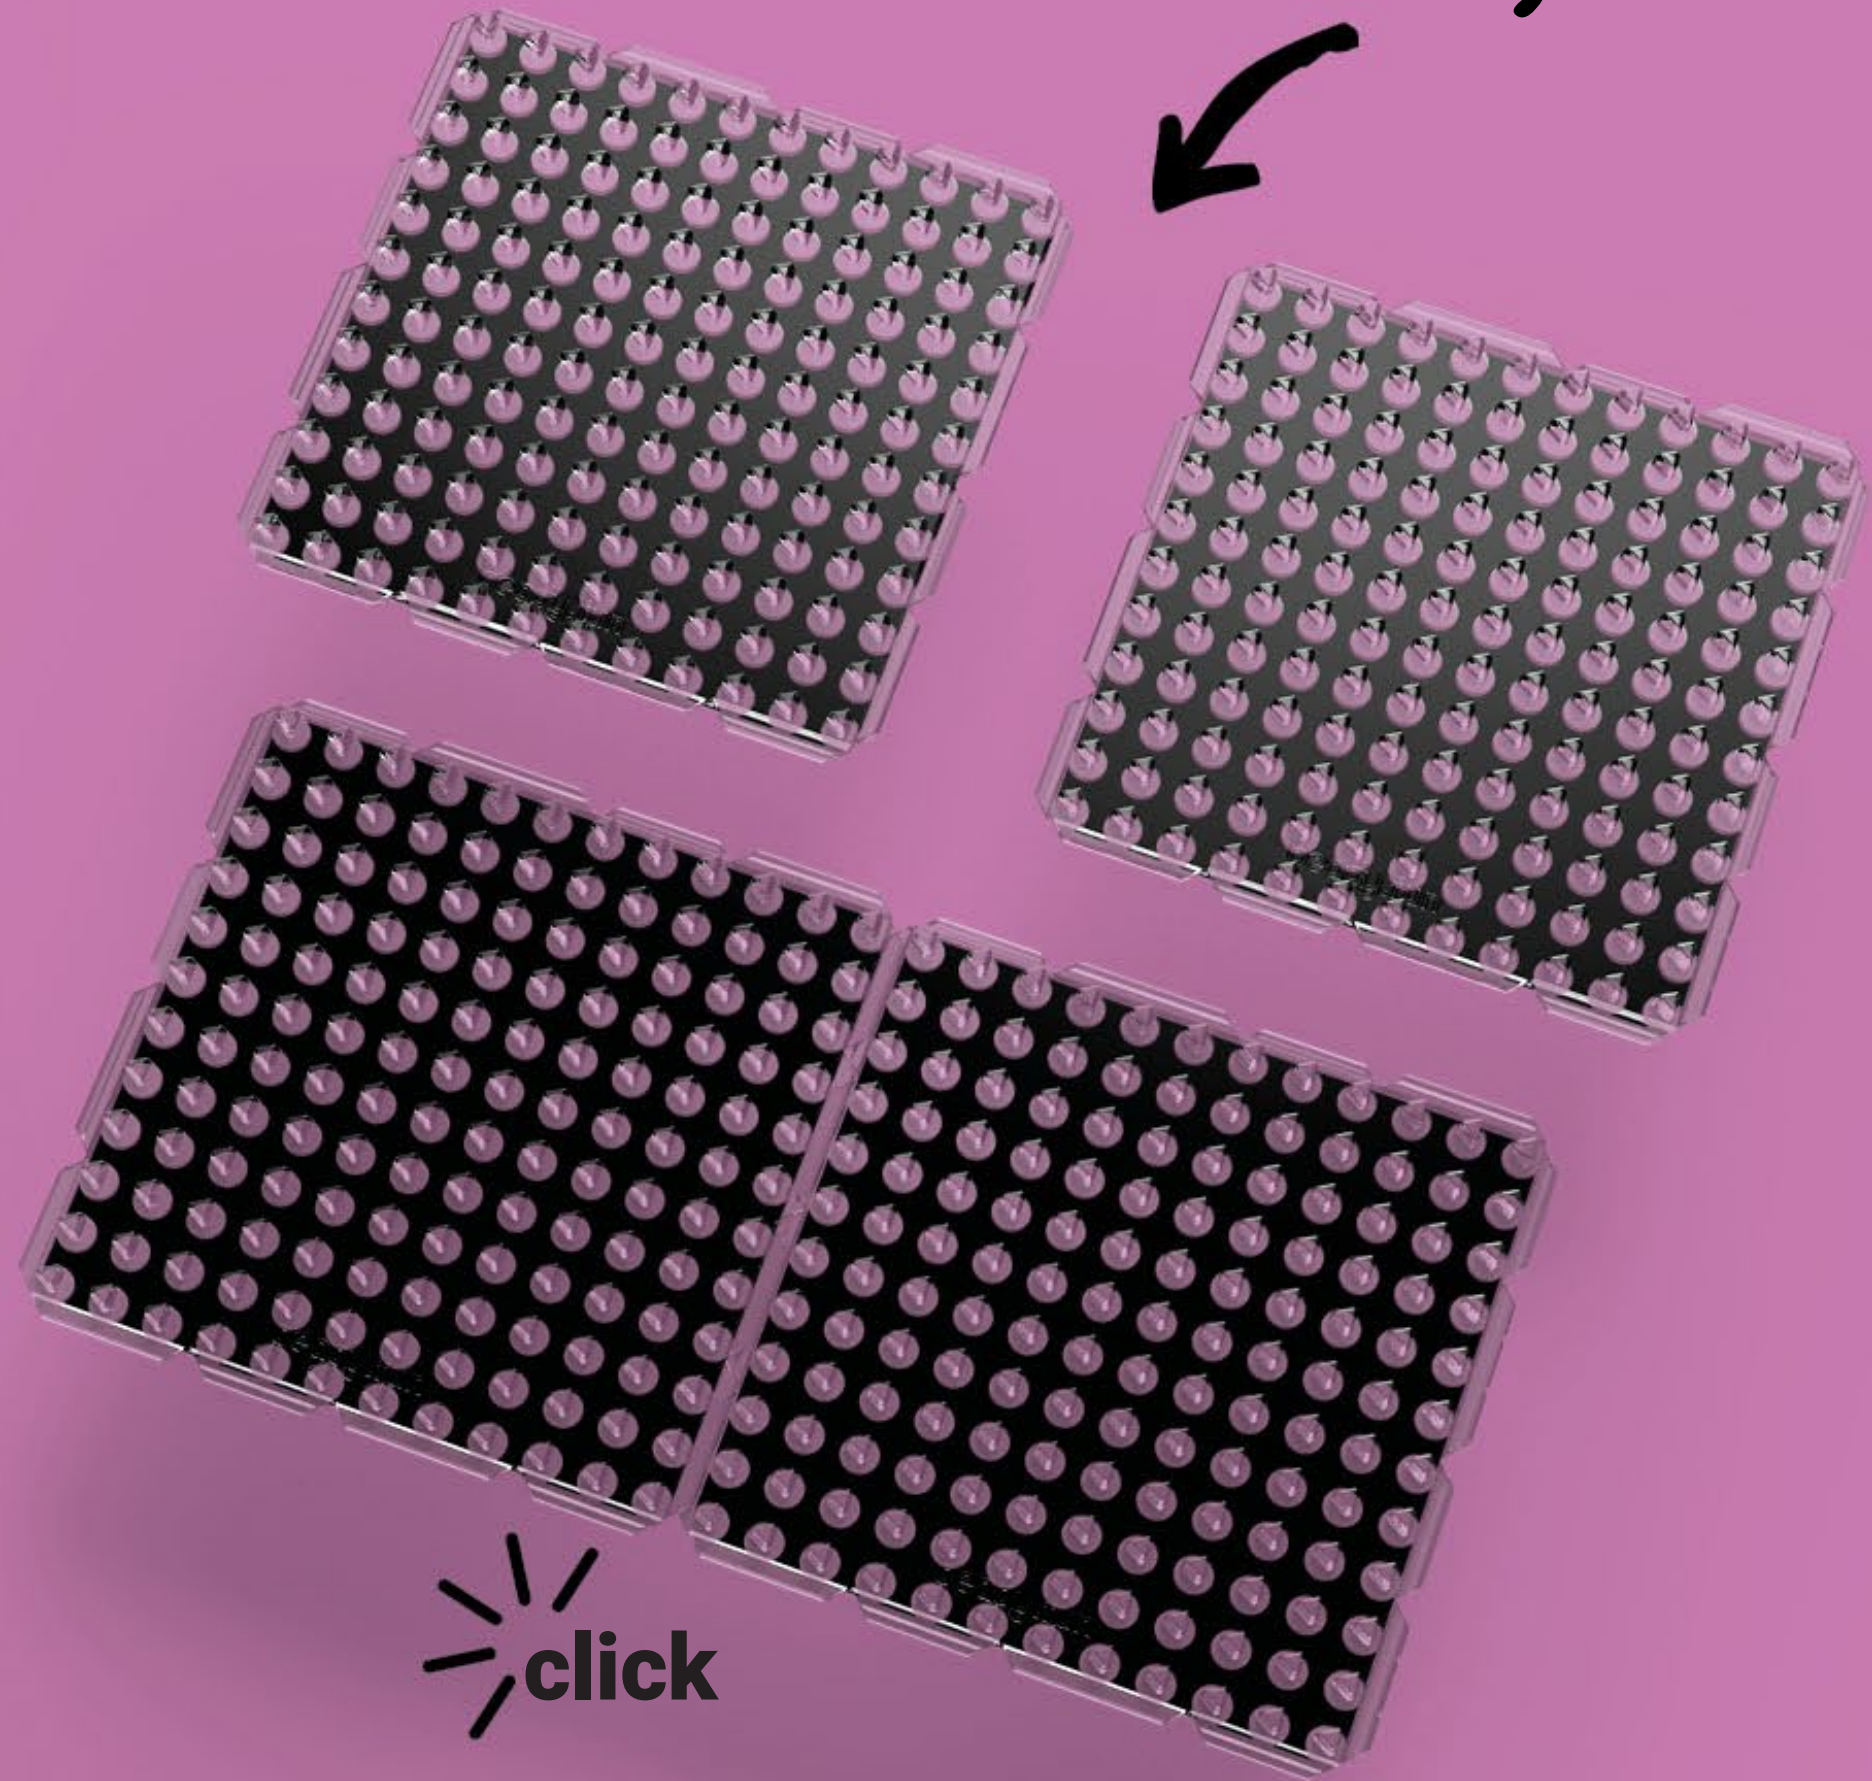

# How the beady pegboards work

**Important!**  
The pegboards  
has to say click!

**Important!**  
Remove the paper

click

Just find the pattern,  
you would like to create

Place the beads on the spikes that light up.

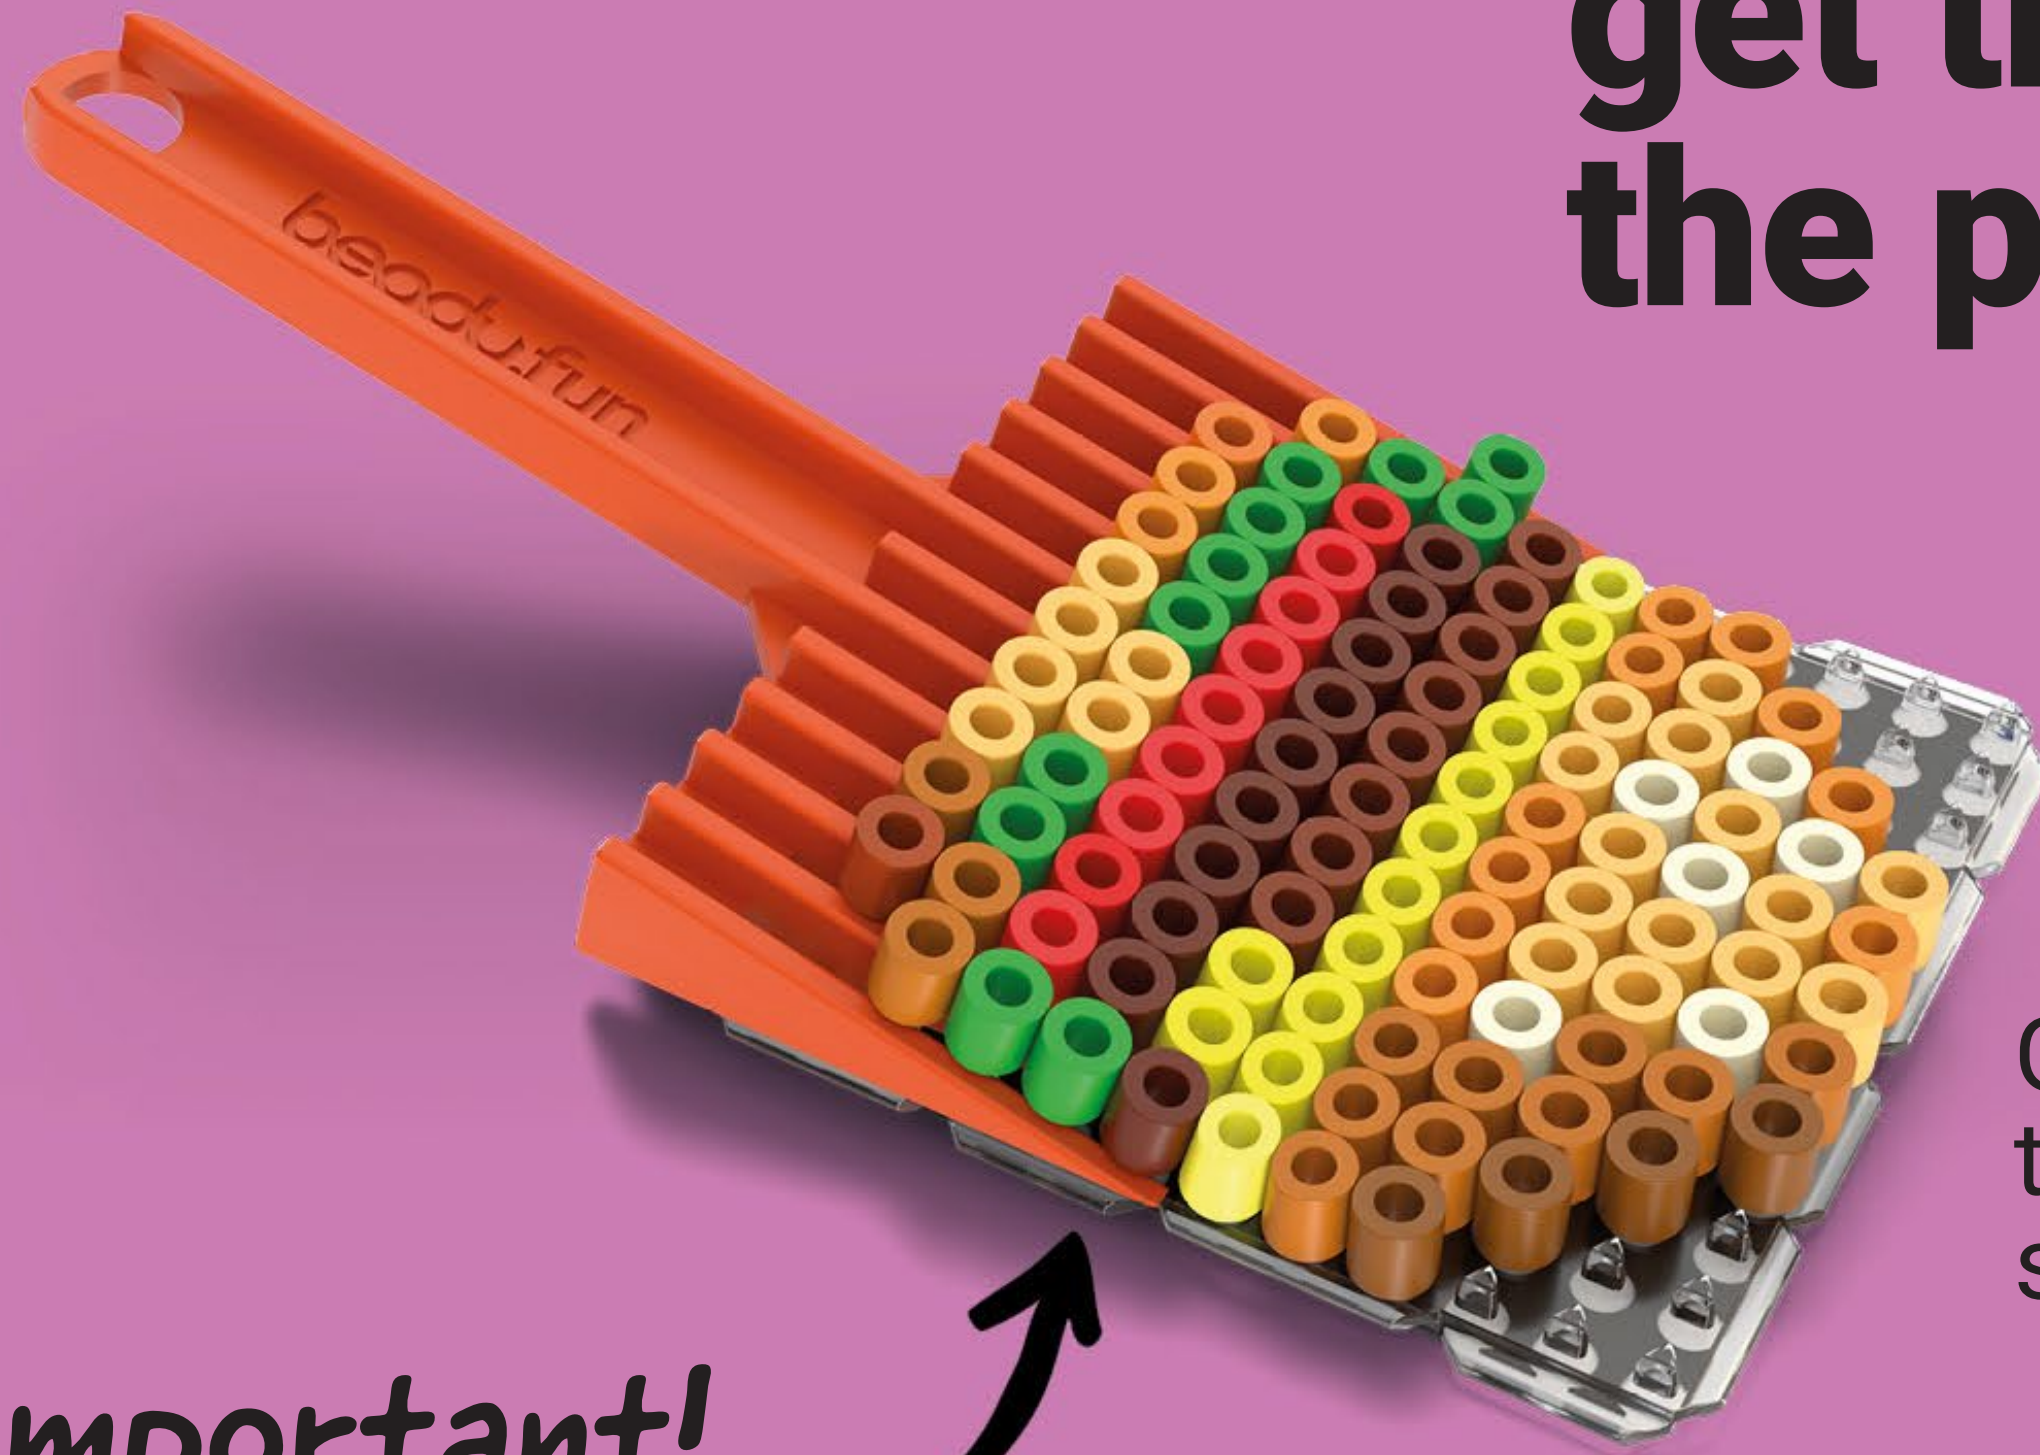

# How to iron Your pattern

- ① Set the iron to **cotton (\*\*)**.
- ② Put baking paper **on top of the pattern**.
- ③ **Let an adult iron the pattern.**  
Iron with light pressure and in circular motions. The pattern is finished when you can **clearly see the colors**.
- ④ Remove carefully the paper.
- ⑤ **Leave the pattern to cool under a book or other flat surface.** Let it rest for a couple of minutes.

# This is how you get the beads off the pegboards

Gently press the scraper under the beads. and push forward in small jerks.

**Important!**  
The teeth of the comb, must be between the spikes.

## How to find the right HAMA bead color

You can use  
yours own  
HAMA beads

**Did you know that!** You can buy HAMA beads directly inside the app?

# Here you can see the Beady palette, with HAMA color codes

Put yours beads on the colorfinder and find the right color.
